

Ecologically friendly cleaning

Dish washing liquid

The ultimate in biodegradability, made from natural renewable raw materials.

Areas of Application:

- Household
- Restaurants
- Fast food vendors
- Lodges

BIOTENSIDON'S dishwashing liquid is ideal for cleaning cutlery and crockery, whether it be at home or at the restaurant. Using our dishwashing liquid helps to keep the fat trap and pipes clear of fat and oil and helps the septic tank to operate naturally.

The disposal of the dish washing liquid falls under the general waste regulations and no additional requirements is necessary.

Application:

Shake well before use!

Add BIOTENSIDON'S dish washing liquid to the water in the basin and wash dishes as normal, for heavy dirt add directly to the pot or pan and use a pot scouring pad to loosen the grime. The use of warm water will increase the cleaning effect and shorten the exposure time.

Instructions for Use:

Due to the large number of possible influences and variances during the cleaning process and differing application, trial processing should be carried out constantly by the user.

Biodegradation starts as soon as water is added.

Precautions:

Keep BIOTENSIDON'S dishwashing liquid out of reach of children and uninformed persons.

Avoid contact with eyes, in case of contact with eyes, rinse out with clean water immediately.

If swallowed drink lots of water.

Store above 1°C.
