

## **Ecologically friendly cleaning**

### **Rhamnolipids SPJ202 – Wetting Agent**

The ultimate in biodegradability, made from natural renewable raw materials.

#### **Areas of Application:**

- Environmental Protection
- Agriculture
- Pharmaceuticals
- Cosmetics
- Detergents & Cleaner
- Nuclear Decontamination
- Fire Protection
- Oil Production

BIOTENSIDON'S Rhamnolipids are effective surfactants, which reduce surface tension to 29 mN/m, emulsify hydrocarbons and have high foaming activity.

The disposal of BIOTENSIDON'S Rhamnolipids falls under the general waste regulations and no additional requirements is necessary.

#### **Application:**

Shake well before use!

Application and mixing ratios to be discussed with the supplier.

#### **Mixing Ratios:**

To be discussed in detail with the supplier.

#### **Instructions for Use:**

Due to the large number of possible influences and variances during the various applications, the instruction for different uses to be discussed with the supplier for the desired effect.

#### **Precautions:**

Keep BIOTENSIDON'S Rhamnolipids out of reach of children and uninformed persons.

Avoid contact with eyes, in case of contact with eyes, rinse out with clean water immediately.

If swallowed, seek medical assistance.

Store above 1°C.
